

## Project Manager

Plymouth, UK · Salary range £27,326 - £32,330 p.a.

Plymouth Marine Laboratory (PML) is a dynamic, highly innovative, independent and impartial provider of scientific research and advice on the marine environment.

PML is looking to appoint a Science Project Manager to manage two European Commission (EC) funded projects, Vectors of Change in Oceans and Seas Marine Life, Impact on Economic Sectors (VECTORS) and the Europe-Africa Marine EO Network (EAMNet) in collaboration with the project coordinators. The post will be divided 80% and 20% respectively between VECTORS and EAMNet.

VECTORS is a large Integrated Project with 37 European partners and a budget of 12.5 million Euros. In EAMNet, a coordination project,

you will be involved in the technical, scientific coordination and capacity building activities.

You will be an enthusiastic, flexible and highly motivated person with excellent interpersonal and organisational skills, possessing appropriate managerial capabilities and experience. You will also ideally have an environmental science background and experience in research project management within the EC Framework programme. The appointment is a full time permanent position.
