

The 15th French-Japanese Oceanography Symposium

Marine Productivity: Perturbations and Resilience of Coastal Socio-Ecosystems

Boulogne-sur-mer - October 17th and 18th
Marseille – October 21st and 22nd

http://wwz.ifremer.fr/productivite_marine_2013_eng/

Main Thema

The Symposium at Boulogne-sur-Mer and Marseille are co-organised by the two French-Japanese Oceanography Societies in cooperation with Ifremer and CNRS.

The last two conferences took place in France, Marseille and Paris, in 2008 and then in Japan, Kobe and Tokyo, in 2010.

In continuity with these two last conferences, the 15th edition of the French-Japanese Oceanography Conference will take place in 2013 at Boulogne sur-Mer and Marseille focusing on :

Marine Productivity: Perturbations and Resilience of Coastal Socio-Ecosystems

The main thema of the conference focus on the issue of aquatic feeding products supply under varied anthropogenic pressures while degradation and loss of productivity are taking place for a large number of the most productive ecosystems located at the land-sea interface.

Boulogne-sur-mer Sessions

Session 1- Process Studies

Main drivers impacts identification and analysis (habitat degradation, environmental contamination, resources use, ...)

Session 2 - Ecosystem Modeling

Integrating complexity with an overall vision from the ecological, economic and social points of view through time and space under varied *scenarii*.

Session 3 - Integrated Management

Approaches in partnership and replicable at local and regional scales: case studies in Japan (Seto Inland Sea,...) and France (Chantier Manche, Baie de Seine et Seine aval,...).

[Passer à la première page](#)

Sessions Marseille

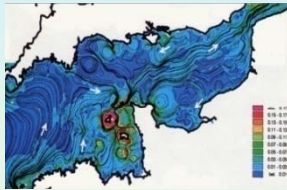

Session 4- Status and Evaluation of MPAs

Concept definition, management tools, MPAs national strategy

Session 5 – Natural Perturbations and Impacts

Impacts and effects of earthquake and tsunami on ecosystems, natural pressures on coral reef, modification of plancton community

Session 6 – Anthropogenic Perturbations, Adaptations and Impacts

Fisheries , oyster farming, marine litter, water treatment, radionuclear pollution...

Session 7 – Integrated Management and Mitigation Tools

Biodiversity measurement, integrated coastal management, artificial habitats and fish reef.

Communication call

Oral communications

Their number is limited. **Only for invited papers** with a balance among specific sessions and between the French and Japanese speakers.

Posters

The standard form of scientific presentation. Their number is not limited.

Dead line

An abstract of 250 words with title, authors name and key words is requested before the **31st of July 2013** for oral communication and poster submissions.

Proceedings

Oral communications will be published by Springer, an international scientific publisher, but also posters if a text of 10 pages maximum is sent before the **mid of October 2013** to be evaluated for final publication

Main Stakes

End of April 2013

Start of the communication call and the sending of abstracts and papers for posters and oral communications.

Start of the symposium registration for Boulogne-sur-mer and/or Marseille by sending the registration form available at the following web address:

[http://wwwz.ifremer.fr/productivite marine 2013/](http://wwwz.ifremer.fr/productivite_marine_2013/)

End of July 2013

End of the communication call and closure for the sending of abstracts. Papers for poster and oral communications can be still sent at the following e-mail address:

colloquefrancojaponais@ifremer.fr

Mid-October 2013

End of registration and closure for the sending of papers.

17th and 18th of October

First part of the French-Japanese Symposium at Boulogne-sur-Mer

21st and 22nd of October

Second part of the French-Japanese Symposium at Marseille (IMPAC3 framework: International Marine Protected Areas

Congress 3)
